Logan J. Herlinger is an eDiscovery Career Associate in Orrick's Global Operations Center, located in Wheeling, W.Va. Logan consults with Orrick attorneys and clients on eDiscovery strategy and information governance issues, including issues related to pending or threatened litigation and records management.

Logan has experience managing a wide-variety of complex discovery matters including multi-district antitrust litigation, class actions, intellectual property litigation, contract disputes, product liability actions, and internal and regulatory investigations. He assists with all aspects of the discovery process, including: coordinating the preservation, collection, review and production of information; conducting IT and custodian interviews; propounding and responding to written discovery; participating in meet and confer negotiations; and assisting in discovery motions practice.

Logan's practice also focuses on information governance. He works with companies' Legal and IT departments to develop information governance and litigation readiness plans that are tailored to the specific needs of each company. This work includes drafting records retention policies and schedules, consulting on the disposition of legacy information (paper and electronic), counseling on email and disaster recovery management, and drafting preservation policies and tracking systems. He has been engaged in these capacities by Fortune 100 companies, large financial institutions, national retailers, technology companies, energy and utility companies, and non-profits.

Logan is an active member of ARMA and the Sedona Conference Working Group 1.

### Representative Engagements

Logan's representative experiences include the following:

- Acting as a member of the Orrick team serving as National Counsel to Union Carbide Corporation in connection with its ongoing asbestos-related product liability litigation.
- Representing life insurance policyholders in multiple actions alleging breach of contract and tort claims against several

Pittsburgh Chapter

- International Legal Technology Association (ILTA)
- Allegheny County Bar Association

industry-leading insurance carriers.

- Represented Oracle and obtained a favorable outcome in state and federal litigation, including an appeal, against the State of Oregon concerning the development of Oregon's health insurance exchange. Litigation involved copyright infringement of computer software code underlying the exchange, constitutional questions concerning the Copyright Remedy Clarification Act and 11th Amendment Immunity, RICO, and false claims act.
- Represented U.S. veterans seeking disability benefits.
